"NO NORTH, NO SOUTH, NO EAST, NO WEST
UNDER THE CONSTITUTION; BUT A SACRED
MAINTENANCE OF THE COMMON BOND AND
TRUE DEVOTION TO THE COMMON BROTHERHOOD."
—FRANKLIN PIERCE.

MONDAY: : SEPTEMBER 13, 1852.

The Southern Whigs hope to relieve Gen. Scott of the odious of nativeism, by publishing that Peter Skin Smith and Lewis C. Levin will not support him. These men are prominent natives, and if they don't support Scott, he cannot be of the true faith.

This is whig logic, and will prove anything—Some of the leading whigs of the United States will not support Scott; therefore Scott is not a whig. The truth is, Scott is worse than the Dutchman's cow. He expected to find the uncertain to be honest on both sides of the creek; but Scott is to be found on both sides of all the creeks. Only eight years ago he claimed the paternity of nativism, but like an unnatural father, he deserted his offspring when it began to be infirm and sickly. No wonder prominent natives now disown him.

Dr. Graham has written a letter endorsing Scott's soundness on the negro question. This is very indiscreet. It is an interference with the well arranged programme of the canvass. The southern whig ought to mind their own business, and let Seward and Greeley's work alone. They have damaged it a good deal, and they do mischief every time they meddle. They drive off abolitionists, and bring no voters to supply their places. Greeley will be fired with indignation after the election, when he sees how the song was spoiled by the southern cooks, and we should not blame him. He and Seward had bailed and swent over the dim, sunless with abolition and gunpowder, and made it very savory, as they thought; but the southern whigs have been throwing in their compromise salt until it has become unpalatable to the higher law people. North. They had better let it alone—can't help the sour or taste at all.

It is remarkable that the two most rabid Scott organs in the United States, are the very anti odds of each other on the slavery question. The New York Tribune defies, scorns and spits upon the patrism, and the Loui ville Journal has become the ultra pro-slavery organ, and dares to mind the platform still higher. The fire eatings down South were ever tame on the question of slavery, compared with the Journal. Indeed our neighbor is decidedly the fiercest pro-slavery man in the United States, so far as we know. He can't allow northern people to say they are "opposed to slavery, black or white, under all circumstances;" although they scrupulously sustain the rights of the South on all occasions. He will not tolerate the expression of such a sentiment. Such moderate defenders of the South Frank Pierce, went do him. Pierce is in fact nothing but an abolitionist, and so are all who dare say the are opposed to slavery. They are not to be trusted. He can endorse for no one North, unless it is some such simon-pure pro-slavery man as Seward, Greeley, Tuck, Scott, Foss & Co.

If these two Scott organs would only publish each other's reasons for supporting Scott and opposing Pierce, their readers would have some rich entertainment.

The whigs having but slender chances of any State in November, have adopted the plan of boasting indiscriminately of all. The Courier is encouraging the faithful with the prospect of carrying Virginia. Won't Scott carry Texas, Alabama, Georgia, South Carolina and New Hampshire? The prospects are flattering in Georgia. We understand there is one whig paper in that State that apologizes for Scott; and there is one at least in Alabama that supports him outright. And as to Mississippi, we should not be surprised if Scott beats Hale in that State, provided there is no Webster ticket.

We are glad to learn that arrangements for the democratic barricade are likely to be simple. That is right. Recollect the whigs after starving mentally and physically on the fourteenth, will need some comfort on the fifteenth. It has been suggested that the whigs will not attend on the fourteenth, fearing a fire in the rear next day—Scott can't complain if that should be the case, for he knows such a fire is to be dreaded.

The Hon. Ed. Stanley, and the Hon. T. F. Marshall have both declared that they don't know Franklin Pierce. It would be very shocking if the people of the United States should elect a man President that neither Stanley nor Marshall is acquainted with. Still this lack of acquaintance with Frank Pierce may perhaps be accounted for, when it is recollected that he chooses his own company.

The whig papers of Ohio are publishing extravagant accounts of Scott clubs formed of democrats who have never before voted the whig ticket. These wonders all take place in counties. We can trust these accounts, and it is our opinion that in — counties in Ohio, Scott will get large majorities.

The editor of the Journal has labored hard to prove, what is known by every officer that was in Mexico to be false, that Gen. Pierce was not in a single battle. We, he does not tell his readers what battle General Scott was in, in that country, what dangers he encountered, and how many wounds he received; where and when he showed his eagerness to plunge into the fight. Some of his readers want to know. Does history give any account of a campaign where the commander-in-chief was more careful of his personal front and rear?

There are great changes in Indiana, in favor of Gen. Scott. In Steue gammon and Pre-simmons counties, all the democrats, it is said, will vote for him! !

Just as we expected.—The whigs didn't like Houston's speech at the court-house Friday night. We didn't expect they would be pleased, when we saw some of them there. You will see that the editors this morning are fired with indignation.

NEW CASTLE Kt., Sept. 6, 1852.

Meers' Editors: Monday being County Court at New Castle, agreeable to former appointment, Dr. N. Green addressed the people on the great and abiding questions of the Presidency of the United States. He vindicated the character of Gen. Pierce from the foul assertions of the abolitionists and their southern allies in an unanswerable and eloquent speech of about two hours, during which time good order and almost profound silence was observed, except at intervals, when the hearers could not restrain themselves.

During the contest and hot discussion, the speakers and on them made their faces look as coarse, scaly, and ill. They stood the fire like salmon-fish; but it is generally believed that the whig in Kentucky can stand almost anything in the way of argument, though some of them cannot stand Gen. Scott, as they most solemnly declare.

After Dr. Green had concluded, Mr. Rohman, the whig elector, made a reply, such as he did not argue any of the old issues that have heretofore divided the two great parties, except a few words about the character of Gen. Scott, and the importance of the war, and military glory; but he was not allowed to speak.

Gen. Scott, however, had a word, but he was not allowed to speak. He said the fire like salmon-fish, and he had made his fire like salmon-fish; but it is generally believed that the whig in Kentucky can stand almost anything in the way of argument, though some of them cannot stand Gen. Capt. C. G. Pearce, Superintendent of the Louisville and Cincinnati Rail-road, states that the boats of that line have and their orders not to race with the opposition boats now in line, on any provocation whatever, nor carry more steam than ordinary.—*Cin. Sun.*

The above is sensible. It shows that the Board of Directors of the old established Mail Line, think more of the lives of their passengers than they do of making a "brash trip." If it is the determination of the opposition line to endanger the lives of passengers by racing, those who take passage on their boats, when so safe a line as the old one is in operation, can blame no one but themselves for what accident may happen.

The Democratic Review.

The August number of the Democratic Review has reached us through the mail. We have not yet had time to examine its contents. We notice in it a likeness of Wm. R. King, our candidate for Vice President. This work has been conducted with great energy, under the new proprietors, and should find its way to every post office in the land.

How many copies circulate in Louisville?—The Democracy should by all means take hold of it in earnest, for there is a marked ability in all its pages.

The Scott and Graham Platform.

One of the measures which Gen. Scott has already availed himself in favor of, is to prohibit all foreigners, coming into the country after a certain time, from enjoying the rights of voters, unless they enlist and serve two years in the army or navy. If there is no war, then they can't enlist, and, of course, as long as there is peace, they can't be voters.

Those who are not of the army standard, even when there is war, will not be taken, and, of course, they, too, will be proscribed of that great right.

Those who are sound in mind, learned and enlightened, but who may happen to be injured in sight, or hearing, or who may have lost a limb, by the same rule of enlistment will be prohibited from ever voting or exercising the rights of citizenship.

That is the Scott plank in the platform.

There is a Graham plank which is a twin brother to it—seenly hewn from the same tree. The North Carolina Standard shall describe it. Hear:

"In common with quite a goodly number of *land-holders*, we enjoyed the sublime satisfaction, on Thursday last, of casting a vote for Senator from Wake county to the next Assembly. Only think of that—a *free man*, on the strength of FIFTY ACRES OF LAND! We saw a number of mechanics, merchants and others, owners of personal property, turned off from the Senate box, while the favored few were allowed to vote."

Gen. Scott's plank would make a national one. Mr. Graham's is already in operation, but it is local, a State affair.

In North Carolina a man must own FIFTY ACRES OF LAND in order to enjoy the privilege of voting for a member of the Legislature. The Federal candidate for Vice President, Mr. Graham, lives in North Carolina; he has been Governor of that State, is a man of influence there, and his party has controlled the State for almost every year for twenty years. Yet they have not only never made any effort to remove this restriction upon the right of suffrage, but have opposed it, while the Democracy are openly advocating free suffrage. In the late election there, the Democrats made that a prominent issue, advancing it everywhere. But Mr. Graham was not heard of in urging the removal of such a test.

The Scott plank, therefore, while it would deprive of a vote and a voice in our government all the enlightened men who have had the misfortune to see the light of day in a foreign land, unless after they come here our country gets into a war, and all such persons enlist and serve two years, is not even as obnoxious as the Graham plank; for that is *now* in statute, force, and actually robs every man of his vote, if he has the misfortune to be *landless*.

If he is too poor to own FIFTY ACRES, he cannot vote; if he has once owned the fifty acres, and has thereby enjoyed a vote, but by trade, or by misfortune, or by the operations of law, has been deprived of the land, he cannot vote! This is the Graham Plank!

FRAUDS OF THE WHIGS.

The House is in Committee of the Whole on the state of the nation.

Mr. Stanton said: I acknowledge my indebtedness to the courtesy of my friend from Tennessee, Mr. [Mr. Polk], for permission to occupy a portion of his time. My object is to direct the attention of the country to the very disgraceful manner in which the friends of General Scott are conducting their cause against General Scott, and to expose the frauds which are committed by those who have in their keeping the interests of General Scott, and who are evading the principles of justice.

On the 17th of June last, immediately after the nomination of General Pierce, by the National Democratic Convention, the National Era, of this city, an Abolition paper, known and recognized over the Union as the central organ of that fanatical party, commenced its warfare upon General Pierce. On that day it published an article, in which it asserted that General Pierce was a pro-slavery man and friend of the South, and was evading the principles of justice.

WONDERFUL PROOF!

DR. BLACKWELL'S
Compound Syrup of Sarsaparilla and Iris
Veronica.

In this age of humbuggery, it behoves every one to guard with a jealous eye the conduct of individuals, and even the dazeling of the world, of outward show insinuates itself into the favor of many, and they become willing dupes to unwholesome ends. Thus it pangs, absorbing too much of the attention of rational and intelligent beings, even to the detraction of their own, and the welfare of the community, and in the further extension of that which is useful, we would recommend Compound Syrup of Sarsaparilla and Iris Veronica, and request the same investigation, by way of trials, that has been made of the following diseases: Consumption, King's Evil, Diphtheria, Fevers, Diseases, Diseases of the brain, Swelled Glands, and all diseases arising from an unquiet state of the blood.

In testimony of the eminent virtues of this Compound we enclose a certificate from a reliable citizen, with the opinion of an excellent physician:

Dr. Blackwell—Sir: I was through the hands of your son the source of your Sarsaparilla upon my little daughter, who is now eight years of age. From over her body, resembling Scrofula. At times her ears and legs were covered over with large running sores, and she was often ill. Her mother, who had been told that she had been before, that I became alarmed, and was about making application to a Physician when I was informed that Dr. Blackwell had a compound syrup of Sarsaparilla, & the blood, I immediately purchased a quart and commenced its use. Before its first bottle was consumed, I saw a change for the worse. Continued its use until the third bottle, when an entire cure was effected. I am now happy to say she enjoys better health than she ever did before. In just two months time, she has been entirely well, and has no bad medicines now in use for purifying the blood, and curing all diseases arising from its impurity. With this please to accept my most sincere regards.

J. A. DOUGHERTY.

Here is the opinion of a Physician of the city, whose name cannot be called in question:

Mr. Blackwell—Sir: Your son's syrup I will send you for examination; your receipt for your Compound Syrup of Sarsaparilla and Iris Veronica, and consider it an excellent preparation.
